

FENESTRATION BAU China—A must-attend event and a future-oriented business platform

FENESTRATION BAU China

Date	November 7–10, 2017
Venue	SNIEC Shanghai New International Expo Center
Cycle	Annual (alternating between Shanghai and Beijing)
Organizer	MMU BAU FENESTRATION Co. Ltd.

FENESTRATION BAU China is Asia's largest and the world's second largest professional gathering in the fenestration industry, consisting of an exhibition, conferences and concurrent events. The event focuses on products, technologies and practical solutions in the fenestration industry, as well as innovation of business models, serving as a platform for business cooperation and information exchanges.

The exhibition focuses on outstanding building products, materials, and services in conjunction with structured, long-term, and sustainable urban development. FENESTRATION BAU China provides a complete overview of the market—it showcases product innovations and reveals specific opportunities for the industry. As an efficient communication, networking, and information platform, it promotes business exchange between manufacturers on one side, and project developers, architects, planners, and distributors on the other.

Don't miss out on the chance to be part of FENESTRATION BAU China 2017!

Facts and figures 2016

Exhibition Size	98,680 m ² (full area) / 45,922 m ² (sold space)
Exhibitors	537
Visitors	80,000

The visitor target groups are architects, engineers, project developers, planners, investors and the construction industry.

The BAU Congress is one of four outstanding congress programmes during FENESTRATION BAU China for all BAU visitors.

Congress 2017—Overview

Day 1: tomorrow's urban design

The Congress will deal with urban development on the opening day.

Day 2: future building technology

The Congress will deal with technological solutions to construction. Exhibitor-related topics such as lighting, building automation, transport, smart buildings, access, and security will be introduced and then can be examined live and in color at the accompanying exhibition.

Day 3: projects for China

The Congress will deal with the issue of project development, as well as Chinese architectural process culture.

The project developers not only focus on the financing and marketing of their projects in China, but they also often assume the role of property developers.
